

## Reward excellence.

The National Technical Honor Society's mission is to honor student achievement and leadership, promote educational excellence, and enhance career opportunities for its members. The Society's vision is to be the leader in providing recognition for excellence in career and technical education, and creating significant occupational opportunities for America's top workforce education students. High schools, colleges and learning institutions are invited to take part in the Society's mission by starting a chapter to recognize their most outstanding students.

## Make the commitment.

NTHS is dedicated to:

- providing the highest quality recognition for outstanding students in career and technical education,
- supplying excellent services to our diverse and multi-cultural membership and member schools,
- creating new and emerging relationships between the educational community and business and industry,
- being a flexible organization on the leading edge of technology and constantly responding to change,
- maintaining financial responsibility to meet our increasing needs, and
- sustaining growth, innovation, and continuous improvement based upon ongoing evaluation.

## Encourage achievement.

The National Technical Honor Society is the acknowledged leader in the recognition of outstanding student achievement in career and technical education. More than 2,500 schools and colleges throughout the United States and its territories are affiliated with the Society. Member schools agree that NTHS encourages higher scholastic achievement, cultivates a desire for personal excellence, and helps top students find success in today's highly competitive workplace.

## Our mission:

The purpose of NTHS is to:

- recognize and honor excellence in career and technical education,
- encourage students to reach for higher levels of achievement, develop self-esteem and pride,
- champion a stronger, more positive image for career and technical education in America,
- promote critical workplace values—including skill development, honesty, responsibility, service, citizenship, and leadership,
- help member schools and colleges build and maintain effective partnerships with local business and industry,
- provide greater career opportunities for members, and
- promote educational excellence in America.

## Honorary membership

Recognizing local leaders is important to partnership development, and fundamental to every NTHS induction program. Honorary membership may be awarded by the local chapter to persons or businesses making significant contributions to the school, students, and local community.

Each honorary membership includes a custom presentation folder and personal letter of appreciation from the Society. Custom framing options are also available from the NTHS online catalog.

## Start an NTHS chapter.

NTHS was founded in 1984 to promote excellence in career and technical education, and to lift up outstanding students. More than 20 years later, the society continues to carry out its mission through the help of thousands of dedicated affiliate institutions.

There is no charge for establishing a chapter at your school. The first step is to complete and submit a charter application. This form can be downloaded at [www.nths.org](http://www.nths.org).

Next, determine the membership criteria that you will use at your school. For suggestions, visit the advisor area of our website or contact the national office.

Then, identify students who meet the qualifications. Inform them of the benefits of membership and invite them to join. Submit their information online, and then celebrate their achievement with a simple induction ceremony.

NTHS is here to help you every step of the way. For more information call 1.800.801.7090 or email [info@nths.org](mailto:info@nths.org).

The National Technical Honor Society offers the resources to promote excellence at your school, and to provide much deserved recognition to your career and technical students. Please do not let their success be overlooked. **Start your chapter today!**
